PROFILE

I'm a student passionate about web and software development, with hands-on experience in Unity and modern web technologies. I enjoy bringing ideas to life through interactive projects and have demonstrated strong problem-solving and communication skills in team environments.

EDUCATION

Symbiosis Institute of Computer Studies and Research

Pune

2023-2026

Bachelors of Computer Applications (Majoring in Artificial Intelligence & Machine Learning, with a minor in Software Development)

- Current Average GPA: 8.6
- Awarded Merit Scholarship for academic excellence (Top 4 GPA holders)
- Actively participated in multiple hackathons and published research in IEEE.

Delhi Public School Gaziabad

Faridabad

2007-2023

Primary to Senior Secondary Education

- Scored 90% in Class 12 (CBSE)
- Scored 85% in Class 10 (CBSE)
- Served as Vice Captain of the school
- Received academic scholarship for outstanding performance

PROJECTS

Research Publication & Presentation – IEEE GCWCN 2025

- Research paper “Deep Learning-Based Perception and Control Systems for Autonomous Vehicles” accepted and presented at the 2025 IEEE 3rd GCWCN, held on 22–23 November 2025.

BudgetEase

- Developed BudgetEase, a budget-tracking website using PHP, MySQL, and Python for chart generation, featuring data export and visual reporting.

Codeictive (Hackathon)

- Built a tool to automate data capture from social media platforms using Python and Selenium WebDriver in a team; contributed to both frontend and backend development.

Game Development

- Created Ashborn, a 2D tower defense game in Unity (<https://suyash-batra.itch.io>).
- StreetRunner, a 3D endlessrunner in Unity.
